CAMBRIDGE.

21st September, 1962.

Dr. Marshall Nirenberg,
Department of Health Education and Welfare,
Bethesda 14,
Maryland,
U.S.A.

Dear Marshall,

Enclosed you will find the review I mentioned. If there is anything I've quoted that I shouldn't have done, or any other alteration you might like, let me know and I'll alter it in proof.

I hope you were happy with the way the Scientific American article turned out. I look forward to reading your own article in due course.

Nothing new here for the moment.

yours ever,

Francis
